Helping to **transfer your skills**

3t Training Services (previously AIS Survivex) are the training delivery partner of choice for the armed forces going into Wind or Oil & Gas.

We are an ELCAS-approved training provider committed to helping ex-forces personnel transfer their skills to the global energy sector - and are gold-level sponsors of the British Forces Resettlement Service (BFRS).

Why trust us?

1 in 5

—
GWO delegates in the UK trust us with their training.

—
We are the largest Global Wind Organisation (GWO) training provider in the UK. 3t Training Services is the UK's number one provider of renewables training, with roughly 1 in 5 Global Wind Organisation (GWO) delegates passing through our doors.

—
We deliver specialist training for the wind industry to thousands of delegates each year from our GWO-endorsed centres in Aberdeen and Newcastle upon Tyne.

Military to Wind ITC Level 3 Diploma in Safe Working Practice in the Wind Turbine Industry

Summary

3t was the first training provider to be approved to deliver wind industry training utilising ELCAS credits.

Our Military to Wind training programme is the first of its kind. Working closely with wind sector employers and industry bodies we have put together this bespoke hybrid package combining the learning

outcomes from Global Wind Organisation (GWO) accredited training into a widely recognised Level 3 Diploma.

The ELCAS-approved 'Military to Wind' training programme provides all the mandatory certification required, whilst preparing you for your new wind sector career.

Contents

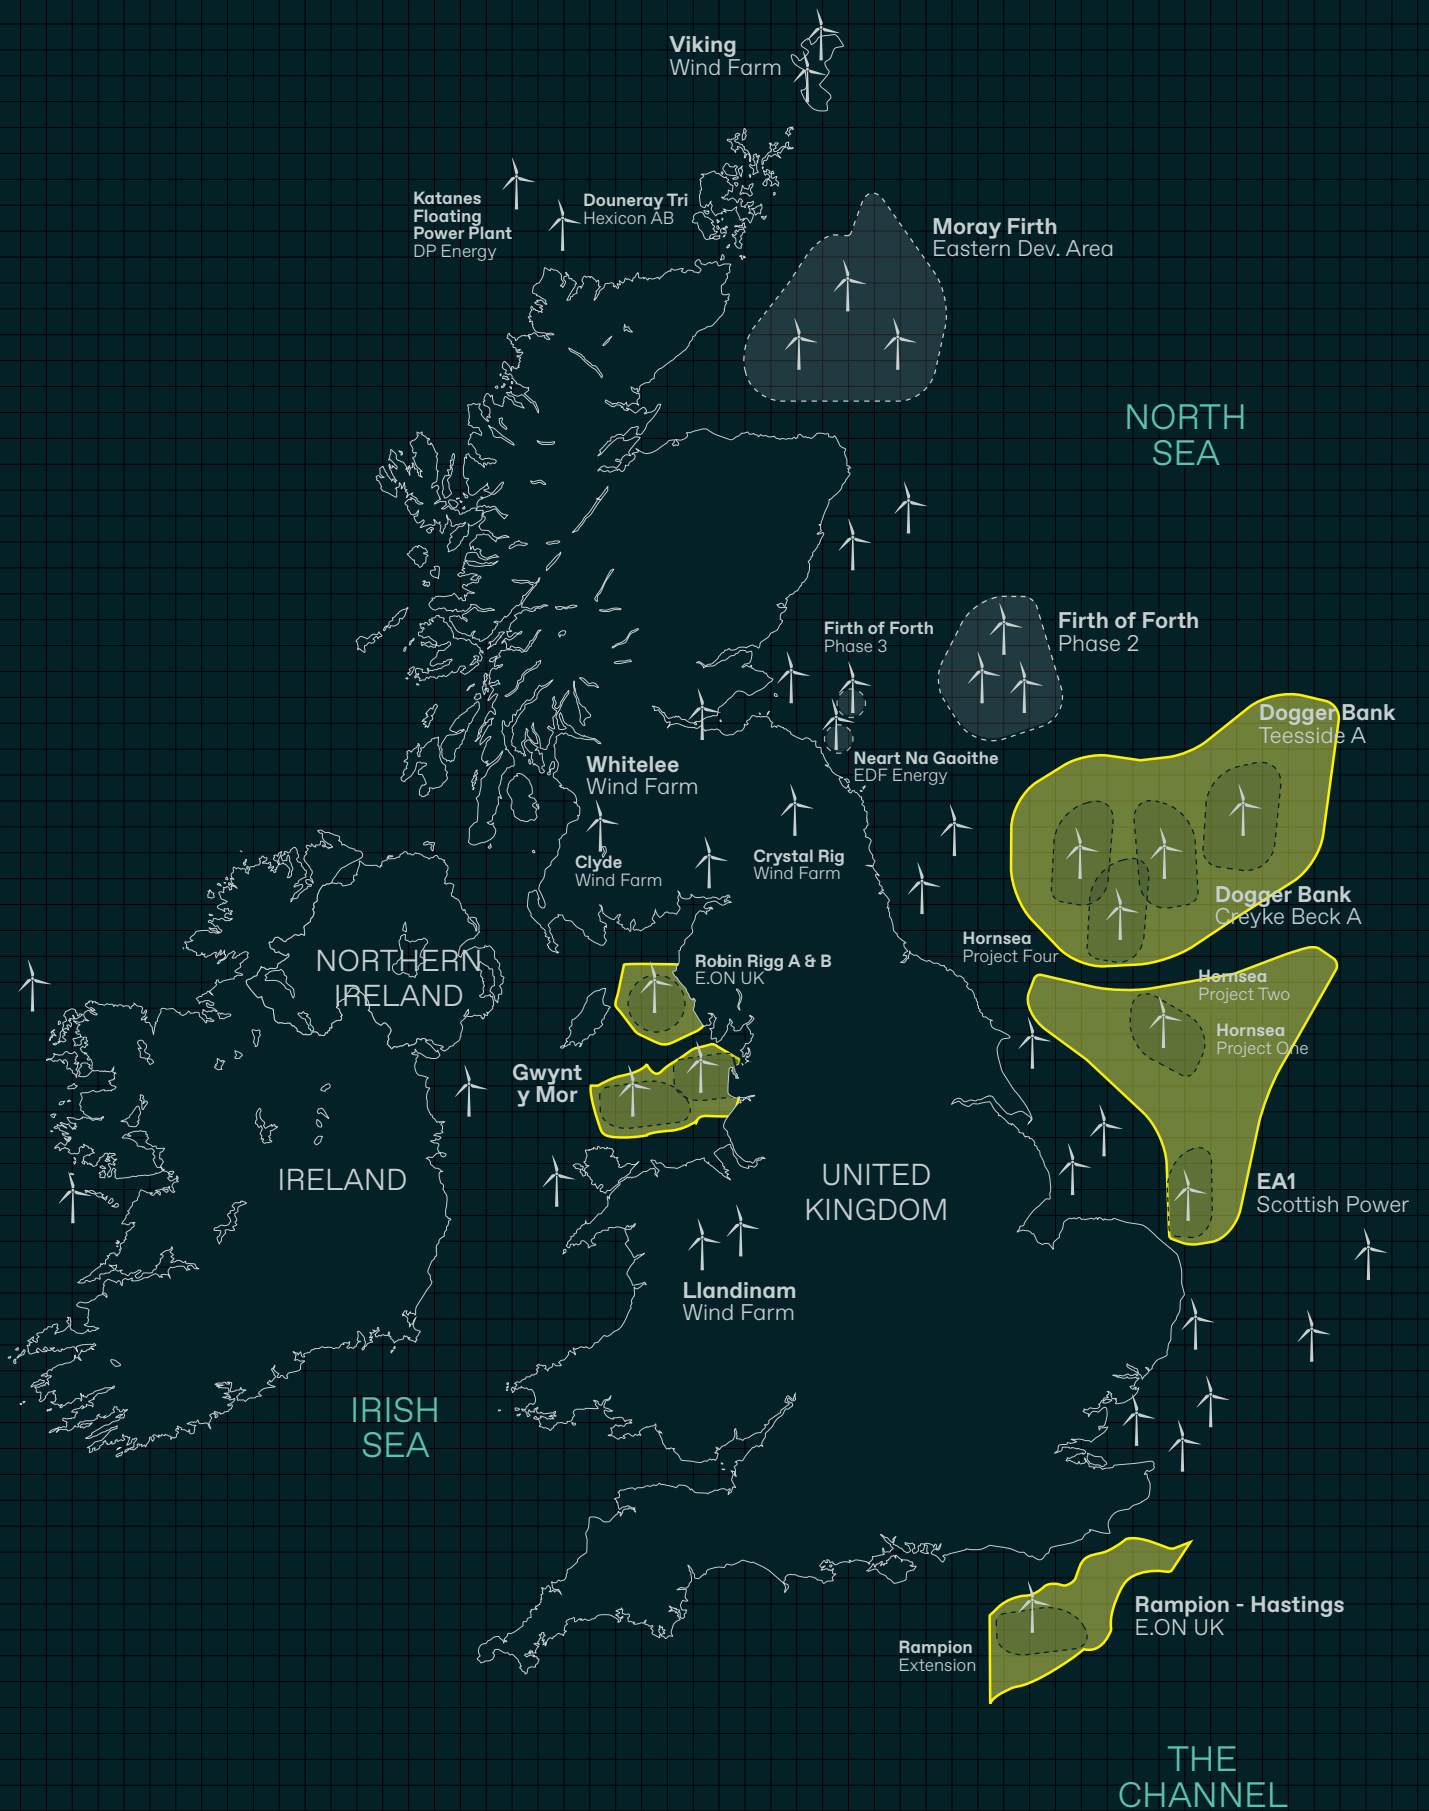

At the end of our 4-week training programme you will be awarded an 'ITC Level 3 Diploma in Safe Working Practice in the Wind Turbine Industry' and your successful completion of the following learning outcomes will be recorded in WINDA...

The programme covers the following:

1. Sea survival
2. Technical training - mechanical, hydraulic, electrical
3. Enhanced first aid
4. Working at height & advanced rescue
5. Manual handling
6. Fire awareness

Highlights

- ITC Level 3 diploma regulated by Ofqual and SQA
- All mandatory GWO-training outcomes covered
- Basic technical training
- Industry recognised vocational training programme
- Exclusively available to military personnel
- ELCAS funding credits accepted

Careers in Wind

As the renewable industry grows, so does the demand for talent to work within it, bringing lots of new career prospects. The industry is the perfect transition for individuals leaving the armed forces who will have benefitted from exposure to many of the skills, experience, and work ethic, that are required to work within this exciting, fast-paced industry.

With so many career paths available, the route you take in renewable energy will depend on your interests, overall experience, and qualifications.

70,000

—
Almost 70,000 additional jobs needed for the offshore wind industry by 2030.

100,000+

—
It's predicted that the number of people working in direct and indirect jobs in the UK's offshore wind industry will increase to over 100,000 by the end of the decade.*

Wind Industry Job Roles

There are many career options within the wind industry, from transport, installation and logistics to operations and maintenance. Some jobs will be office based; however, most will be in the field either onshore or offshore.

The salary band you can expect to achieve will differ depending on the role and the company.

—
The top employers *are often looking for:*

Project Managers

(£120,000 - £150,000)

Environmental Advisors

(£40,000 - £60,000)

Wind Analysts

(£50,000 - £70,000)

Environmental Scientists

(£60,000 - £80,000)

Contract Engineers

(£50,000 - £70,000)

Contract Managers

(£80,000 - £100,000)

Geotechnical Engineers

(£80,000 - £100,000)

Procurement Specialists

(£50,000 - £70,000)

Production Managers

(£45,000 - £50,000)

Quality Inspectors

(£40,000 - £60,000)

Structural Engineers

(£65,000 - £85,000)

Site Managers

(£75,000 - £85,000)

Installation Managers

(£120,000 - £150,000)

Wind Turbine Technicians

(£40,000 - £55,000)

Electrical Engineers

(£50,000 - £70,000)

Mechanical Engineers

(£40,000 - £60,000)

Design Engineers

(£45,000 - £65,000)

Cable Jointers

(£35,000 - £45,000)

Operations Managers

(£65,000 - £85,000)

Field Service Technicians

(£45,000 - £65,000)

Blade Repair Technicians

(£40,000 - £55,000)

Service Managers

(£75,000 - £85,000)

Technical Analysts

(£40,000 - £60,000)

Performance Managers

(£45,000 - £60,000)

Training Coordinators

(£50,000 - £60,000)

BOOST Package

ITC Level 3 Certificate in Basic Offshore Operations Safety Training

Summary

There has never been a better time for ex-forces to transition into the Oil & Gas sector. In an exciting development for the offshore sector, 3t, a trusted provider of industry-specific training, has just released an ELCAS-approved package to help you take that first step offshore.

This bespoke programme is designed to equip individuals like yourself with the essential certifications needed to embark on a successful career in the Oil & Gas industry.

Working closely with partners in the Oil & Gas industry 3t have put together a bespoke 4-week training programme. At the end of this programme, successful delegates will be awarded with an ELCAS-approved ITC Level 3 Certificate in Basic Offshore Operations Safety Training.

Graduates will also have their achievements recorded on OPITO's industry portal, "Vantage," providing a digital record of their competencies, which is widely recognised within the Oil & Gas sector

Contents

At the end of the 4 week training programme you will be awarded the ITC Level 3 Certificate in Basic Offshore Operations Safety Training. Successful completion of the outcomes will also be captured on OPITO's industry portal "Vantage".

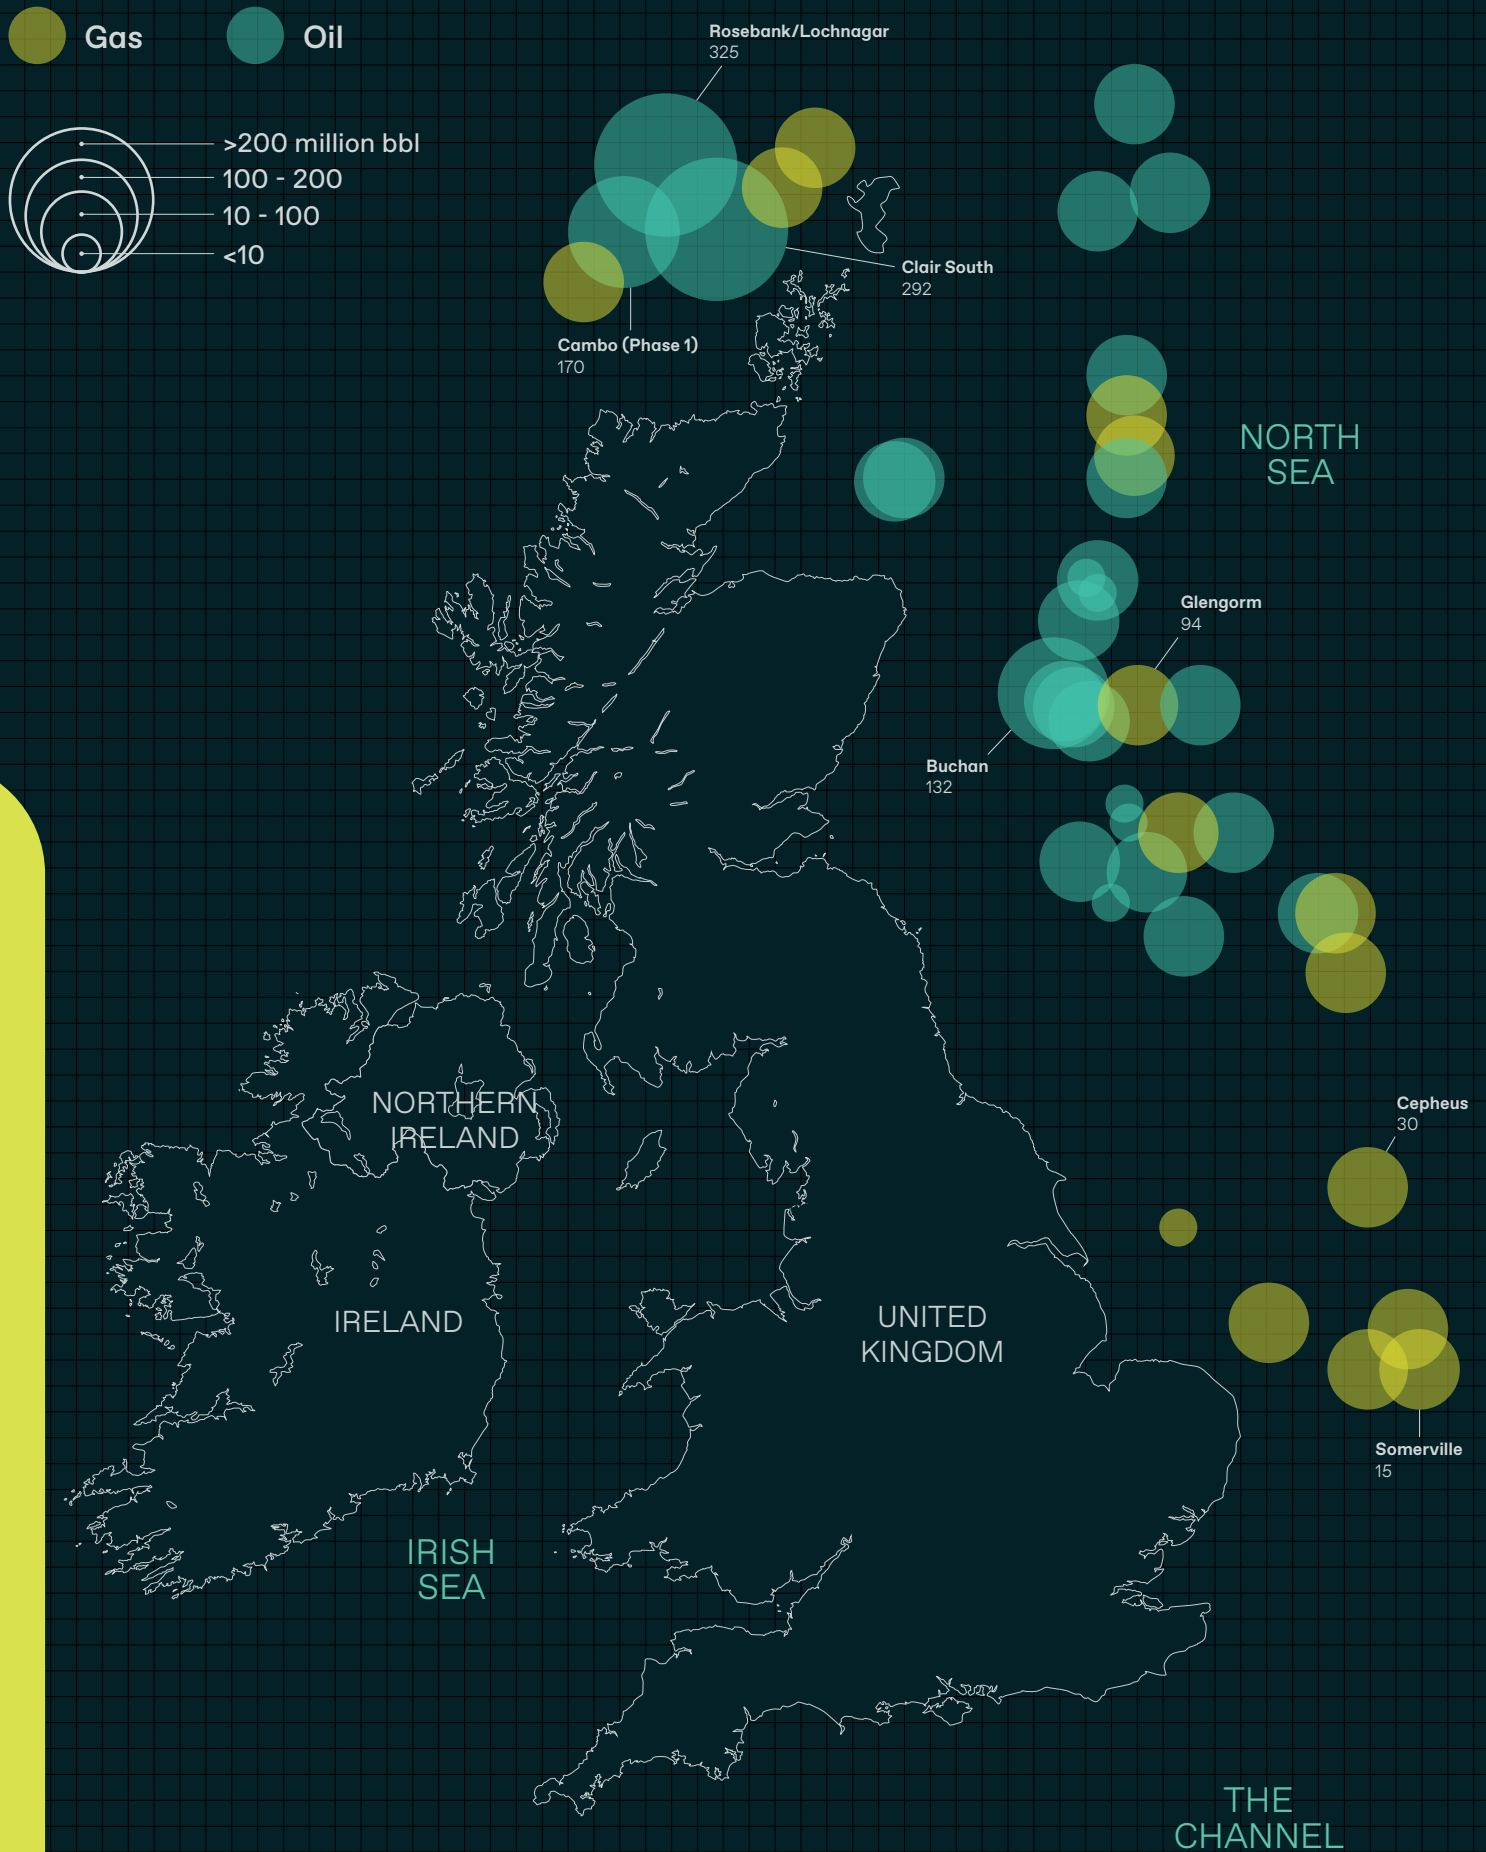

The programme covers the following:

1. Sea Survival, including helicopter survival exercises
2. Lifting Operations
3. Helideck Operations
4. Offshore and Helideck Emergency Response
5. Safety Passport
6. Medicals

Highlights

- ITC Level 3 diploma regulated by Ofqual and SQA
- All mandatory OPITO outcomes are covered
- ELCAS funding credits accepted
- An industry recognised training programme with a track record in supporting individuals into their first offshore starts

Licensed North Sea developments that could be approved during 2022-2025

Using ELCAS credits to fund your training? *Here's how...*

The MOD's Enhanced Learning Credits Scheme (ELC) promotes lifelong learning amongst members of the Armed Forces.

The scheme provides financial support in each of a maximum of three separate financial years for higher level learning of a nationally recognised qualification at Level three or above or, if pursued overseas, an approved international equivalent qualification with an approved learning provider.

Personnel who are still in Service, and/or in their resettlement phase may claim up to £3000 per year towards retraining. Claiming is quick and easy - simply complete an online claim and submit to your Education Staff prior to starting your course.

For more information visit

www.enhancedlearningcredits.com/serving-personnel/claiming-elc-personnel

Starting you on the *right path...*

Once you have completed the training programme it is our goal to set you on the path to employment by arranging an interview with one of our wind sector clients...

—
'Military 2 Wind' with 3t Survivex & Correll Group...

Just four weeks after completing the 3t Training Services 'Military to Wind' training programme, 29-year-old Jack from Barnsley landed his first wind role as a fibre-optic installer with Correll, the leading global specialists in offshore and onshore high-voltage cabling.

We are training the workforce of the future.

At 3t we are passionate and focused on enabling individuals to fulfil their potential, be better prepared and more confident in their job role to maximise their career opportunities.

Ultimately, we want to make the energy industry as a whole safer, smarter and more efficient through better training.

Ideally Placed.

We are the UK's biggest energy sector training provider with locations in London, Newcastle, Teesside, Dyce, Montrose and Aberdeen Quayside.

150k

Number of delegates trained each year.

600+

Number of training courses in our portfolio.

60

Expert training instructors with vast industry knowledge.

Success stories

Working in the global energy sector is an attractive option for many former military personnel.

There are lots of synergies between military life and energy sector working - because of this, ex-service personnel are often sought after by many wind sector employers and agencies.

But don't take our word for it! Here are a few of our delegates who have transferred from military to energy with 3t Training Services...

"I love working in the wind sector. The lifestyle suits me down to the ground as it's a bit like being in the military, spending spells away from home but also having quality time off afterwards."

—
Ray Richardson, ex Royal Marine Mechanical Engineer from Whitley Bay

"Coming out of the Royal Marines with no technical experience felt very much like starting from scratch and it was a huge transition to where I am now. I've now got extremely marketable skills and feel completely prepared for my wind career."

—
Jonathan Askew, ex Royal Marine Motorman from Cramlington

"Being new to the industry, I found myself constantly asking questions but the team at 3t couldn't have been more helpful. As well as all the qualifications, I picked up lots of tips and advice which has undoubtedly helped me get my first offshore job."

—
Alastair Jeffrey, ex-Military from Pitlochry
